Celanese Announces Intermediate Chemistry Price Increases

DALLAS (October 14, 2014) Celanese Corporation (NYSE: CE), a global technology and specialty materials company, will increase the price of formaldehyde (37% water solution) by \$175/mt. The prices for more concentrated solutions will increase proportionally.

Price increases are effective January 1, 2015, or as contracts allow.

Customers should contact their Celanese sales representative for more details.

About Celanese

Celanese Corporation is a global technology leader in the production of differentiated chemistry solutions and specialty materials used in most major industries and consumer applications. With sales almost equally divided between North America, Europe and Asia, the company uses the full breadth of its global chemistry, technology and business expertise to create value for customers and the corporation. Celanese partners with customers to solve their most critical needs while making a positive impact on its communities and the world. Based in Dallas, Texas, Celanese employs approximately 7,400 employees worldwide and had 2013 net sales of \$6.5 billion.
