## **Celanese Presents Cutting-edge Pharmaceutical Copolymer at 2015 AAPS Annual Meeting & Convention**

DALLAS and ORLANDO, Fla., (October 21, 2015) – Celanese Corporation (NYSE: CE), a global technology and specialty materials company, will present its EVA pharmaceutical material solutions at the [2015 AAPS Annual Meeting and Exposition](#) in Orlando, Fla. Celanese will exhibit its pharmaceutical controlled release copolymer, VitalDose® EVA, October 25-29, 2015 at booth 316.

Celanese material experts will discuss the latest developments in pharmaceutical material science and how ethylene vinyl acetate (EVA) is being used in new drug delivery innovations. VitalDose® EVA controlled release excipients deliver reliable performance with customizable release properties that are compatible with many active pharmaceutical ingredients.

“The unique properties of EVA controlled release excipients allow for customizable delivery rates that are expanding pharmaceutical possibilities,” said Kelsey Achenbach, Celanese strategic marketing manager. “VitalDose EVA offers flexible delivery systems and process versatility backed by high-touch technical expertise to assist from project conception through design and regulatory approval.”
