Technical Data Sheet

X-Link® 2819 Emulsion
(25-28190)

Description:

- Self-crosslinking vinyl acrylic copolymer emulsion

Features:

- Compound stability
- Excellent machine runnability
- Produces durable substrates requiring drapeability

Benefits:

- Efficient at low dosages
- Imparts water repellency to bonded surfaces
- Crosslinking functionality boosts solvent resistance

Storage & Handling:

- Shelf life is approximately six months at 77°F.
- Consult MSDS for important health, safety and handling information before using this product.
- Consult Celanese’s Storing, Handling and Preserving Emulsion Products brochure.
