

# AVICOR® 6408

## 100% ACRYLIC EMULSION FOR EXTERIOR SPECIALTY COATINGS

### DESIGNED FOR DURABLE SEALERS

Avicor® 6408 is an all-acrylic polymer developed using a unique polymerization technology. The result is an acrylic copolymer exhibiting extremely uniform and small particle size. The 100% pure acrylic emulsion shows excellent resistance to UV degradation from exterior exposure making it ideal for use in clear sealers for wood and concrete. The film also offers excellent water and alkali resistance, providing exceptional weathering resistance. This emulsion can also be used as a co-binder to impart hardness and early abrasion resistance.

Typical Properties*	
<b>Solid content</b>	45%
<b>Viscosity</b>	<100 cps
<b>Average particle size</b>	80 nm
<b>Tg</b>	52°C
<b>MFFT</b>	34°C
<b>pH</b>	8.5
<b>APE-free</b>	No

\*These values are typical and do not constitute specifications.

### APPLICATIONS

- Concrete sealers
- Water-resistant coatings
- Wood coatings

### KEY FEATURES

- Excellent clarity for clear sealers
- Excellent alkali resistance
- Outstanding water resistance
