Celanese Food Ingredients Food & Feed Safety & Security Policy

The Celanese Food Ingredients Food & Feed Safety & Security Policy is an extension of our Global Celanese Quality Policy. Celanese Food Ingredients, as a reliable western supplier, always guarantees safe food ingredients. Our top priority is that our products are always very pure, of the highest quality and fit for human consumption.

As a manufacturer of food ingredients, we always live an active food safety culture with the aim of producing reliable, pure and high-quality food ingredients at all stages. Risk assessments are designed to reduce any possible risk to an absolute minimum. For Celanese Food Ingredients maintaining a food safety culture means that every staff member knows the risks associated with our processes and products we produce. In addition, every staff member also understands how we control risks and why managing the risks is important. For us, our food safety behavior is a key contributor to food safety performance.

Our Food & Feed Safety & Security Management System fully complies with the Quality Management Standard ISO 9001 and the Food Safety System Certification FSSC 22000, a GFSI recognized scheme. In addition, our Sorbates are in compliance with the FAMI-QS standard for feed. Celanese Food Ingredients fulfills the latest requirements of Food Defense (IFS Food version 6.1 chapter 6) and FDA Food Safety Modernization Act (FSMA). Pharma grade materials also conform to the Joint Good Manufacturing Practices Guide for Pharmaceutical Excipients published by IPEC/PQG.

We are fully committed to the latest Food & Feed Safety & Security requirements including those fighting food fraud. Changes in Food Safety and Security Standards are tracked and put in place immediately. Celanese Food Ingredients strives to always be a step ahead of Food & Feed Safety & Security requirements. The target is that our customers should be able to trust Celanese Food Ingredients to deliver consistently safe and very reliable specialty food ingredients.

Celanese Food Ingredients has set up, documented, implemented and is currently maintaining an effective Food & Feed Safety & Security Management System for raw material and packaging sourcing, as well as for manufacturing, warehousing and distribution of its specialty food ingredients, feed additives and pharma grade products. Crisis Management including fast traceability and a 24/7 emergency support is implemented.

As part of our Food & Feed Safety Culture we are setting objectives for Food & Feed Safety & Security and those are continuously measured to improve the effectiveness for end-user safety. The Food & Feed Safety Management System is regularly reviewed and, when necessary, updated.

Celanese Food Ingredients Management is fully committed to the Food & Feed Safety Culture. This ensures all necessary measures are established to meet all applicable requirements.
