1. Product and company identification

Trade Name

**GUR®, GHR®**

The following SDS applies to products described by combinations of the following trade name, product grade and color code listed below.

**Product Grade(s):**

**Color Code:**
See Section 16 for list of Color Codes

**Manufacturer, importer, supplier**

**Ticona Polymer, Inc.**
**A business of Celanese**
8040 Dixie Hwy.
Florence, KY 41042
United States
www.celanese.com

**Transportation emergency phone numbers:**
In USA, call  800 424 9300
Outside USA, call +001 703 527 3887, collect calls accepted.

**Product Information**
1-800-833-4882
info-engineeredmaterials-am@celanese.com

**Synonyms:**
Ultra High Molecular Weight Polyethylene / PE-UHMW

**Identified uses**
Plastic processing industry.

2. Hazard Identification

**GHS Classification**

<table>
<thead>
<tr>
<th>Hazards</th>
<th>Category</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not classified</td>
<td>Not applicable</td>
</tr>
</tbody>
</table>

**Label elements**
No Pictogram Required.

**Signal Word**
Warning

**Hazard Statements**
May form combustible dust concentrations in air
Precautionary statements
Handle in accordance with good industrial hygiene and safety practice

3. Composition/information on ingredients

Chemical characterization
Ethylene, polymer, CAS-RN. basic polymer: 9002-88-4.

Remarks
This product may contain proprietary ingredients.
This is a polymeric material. Any hazardous constituents are wetted by the polymer system, and therefore are unlikely to present exposure under normal conditions of processing and handling.

4. First aid measures

Skin
Wash off with soap and water. Cool skin rapidly with cold water after contact with molten polymer. If symptoms persist, call a physician.

Eyes
Immediately flush eye(s) with plenty of water. Call a physician if irritation persists.

Inhalation
Move to fresh air in case of accidental inhalation of dust. Get medical attention immediately if symptoms occur***

Ingestion
If swallowed, do not induce vomiting - seek medical advice.

Notes to physician
This product is essentially inert and nontoxic. However, if it is heated at too high a temperature or if it is burned, gases may be released. Patients who have been exposed to off-gases may need to have their arterial blood gases and carboxyhemoglobin levels checked. If the carboxyhemoglobin levels are normal, asphyxia (carbon dioxide replacing oxygen) is a possibility. As with any fire, irritant gases may have formed. If patients may have inhaled high concentrations of irritating fumes, they should be monitored for delayed onset pulmonary edema.

5. Fire-fighting measures

NFPA: Health: 1 Flammability: 0 Instability: 0

Suitable extinguishing media
Water, Foam, Dry powder

Extinguishing media which must not be used for safety reasons
Do not use a solid water stream as it may scatter and spread fire.

Special exposure hazards arising from the substance or preparation itself, its combustion products, or released gases
Carbon monoxide
Carbon dioxide (CO2)
Special protective equipment for fire-fighters
Wear self-contained breathing apparatus and protective suit.

Other Information
Keep people away from and upwind of fire. Potential dust explosion hazard

Dust explosibility class
St-1

6. Accidental release measures

Personal precautions
Do not breathe dust. Avoid dust formation.

Environmental precautions
No special precautions required.

Methods for cleaning up
Avoid dust formation. Potential dust explosion hazard. Remove all sources of ignition. Do not create a powder cloud by using a brush or compressed air. Contain spillage, pick up with an electrically protected vacuum cleaner or by wet-brushing and transfer to a container for disposal according to local regulations (see section 13).

7. Handling and storage

Advice on safe handling
Do not handle hot or molten material without appropriate protective equipment. Do not exceed recommended process temperatures to minimize release of decomposition products. Maintain good housekeeping in work areas. Provide appropriate exhaust ventilation at machinery and at places where dust can be generated.

Protection - fire and explosion:
Do not smoke in areas where polymer dust is present. Appropriate measures should be taken to control the generation and accumulation of dust during conveying and processing operations. All equipment used when handling the product must be grounded. Ground and bond containers when transferring material. Take measures to prevent the build up of electrostatic charge. Emptying of bags of powder directly into vessels where flammable vapors exist should be strictly prohibited because static discharges can be generated of sufficient strength to produce an explosion. Use explosion-proof equipment.

Technical measures/Storage conditions
No special storage conditions required. Avoid dust formation.

Material storage
Keep containers tightly closed in a dry, cool and well-ventilated place.

Incompatible products
Halogene, Strong oxidizing agents, Aromatic solvents***

8. Exposure controls / personal protection

OSHA Exposure Limits

<table>
<thead>
<tr>
<th>Components</th>
<th>TWA</th>
</tr>
</thead>
</table>

3 of 8
Respirable Dust 5 mg/m³
Total Dust 15 mg/m³

ACGIH Exposure Limits

<table>
<thead>
<tr>
<th>Components</th>

</tr>
</thead>
<tbody>
<tr>
<td>Respirable Dust</td>
<td>3 mg/m³</td>
</tr>
<tr>
<td>Total Dust</td>
<td>10 mg/m³</td>
</tr>
</tbody>
</table>

Mexico National Exposure Limits
No exposure limits established

Exposure controls

Engineering measures
General: May not be adequate as the sole means to control employee exposure.
Local Exhaust: Recommended when appropriate to control employee exposure to dust or process vapors.

Protective equipment
A safety shower and eyewash should be readily available.

Respiratory protection
In case of insufficient ventilation wear suitable respiratory equipment

Skin protection:
When thermal or melt processing, wear long pants, long sleeves, well insulated gloves, and face shield when there is a chance of contact.

Eye/face protection:
Safety glasses with side-shields. Safety goggles.

Comments:
Operations involving grinding and machining of parts should be reviewed to assure that particulate levels are kept below recommended standards

9. Physical and chemical properties

Appearance
Form powder
Odor slight, specific
Flash point Not applicable
Ignition temperature 350°C (662°F)
Density approx 0.92 - 0.95 g/ml @ 25°C
9. Physical and chemical properties

<table>
<thead>
<tr>
<th>Method</th>
<th>EN ISO 1183-1, A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bulk density</td>
<td>approx 0.1 - 0.5 g/cm³ @ 20°C</td>
</tr>
<tr>
<td>Method</td>
<td>DIN EN ISO 60</td>
</tr>
<tr>
<td>Water solubility</td>
<td>insoluble</td>
</tr>
</tbody>
</table>

10. Stability and reactivity

Reactivity
Stable under normal conditions

Conditions to avoid
Flame. Avoid prolonged heating at or above the recommended processing temperature. Fine powder may present a dust explosion hazard. Appropriate measures should be taken to control the generation and accumulation of dust during conveying and processing operations. Electrical grounding of equipment and the minimization of ignition sources is required when handling powder to avoid possible dust explosion.***

Incompatible Materials
- Halogens
- Strong oxidizing agents
- Aromatic solvents***

Hazardous Combustion or Decomposition Products:
Thermal decomposition products may include oxides of carbon.

11. Toxicological information

Potential health effects

Routes of exposure
Skin, eyes, inhalation, ingestion.

Immediate effects

<table>
<thead>
<tr>
<th>Route</th>
<th>Effect</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skin</td>
<td>Polymer particles may cause mechanical irritation.</td>
</tr>
<tr>
<td>Eyes</td>
<td>Resin particles, like other inert materials, are mechanically irritating to eyes</td>
</tr>
<tr>
<td>Inhalation</td>
<td>Dust irritating to respiratory tract. Overheating in processing may generate hazardous, irritating vapours.</td>
</tr>
<tr>
<td>Ingestion</td>
<td>Low toxicity by this route is expected based on the biological activity of high molecular weight polymers.</td>
</tr>
</tbody>
</table>

Toxicological data are not available. When handled appropriately, even after long years of experience with this product, no adverse health effects are known.
12. Ecological Information

Ecotoxicity: Ecotoxicological data are not available.

Environmental Fate/Information: This material is considered to be non-biodegradable.***

13. Disposal considerations

Disposal considerations
Recycling is encouraged. Dispose of spilled material in accordance with state and local regulations for waste that is non-hazardous by Federal definition. Note that this information applies to the material as manufactured; processing, use, or contamination may make this information inappropriate, inaccurate, or incomplete.

This product as shipped is not a RCRA hazardous waste under present EPA regulations***

14. Transport information

US Department of Transportation Not regulated

TDG Not regulated

Mexico Transport Information Not regulated

ICAO/IATA Not restricted

IMDG Not regulated

15. Regulatory Information

US State Regulations
Chemicals associated with the product which are subject to the state right-to-know regulations are listed along with the applicable state(s):
none

U.S. FEDERAL REGULATIONS

TSCA Inventory:
This product complies with the U.S. Toxic Substances Control Act (TSCA).

Environmental Regulations:

SARA 313 Chemicals
Contains no substances at or above the reporting threshold under Section 313.

SARA 311:
Safety Data Sheet

Product Name: GUR®, GHR®
MSDS number: 87050101
Revision Number: 2***
Revision Date: Jun.26.2018***
Issuing date: Nov.09.2018***

Acute health: No
Chronic health: No
Fire: No
Sudden release of pressure: No
Reactive: No

INTERNATIONAL REGULATIONS

CANADIAN REGULATIONS

WHMIS Classification: Not a WHMIS controlled product.

WHMIS Ingredient Disclosure List IDL:
This product does not contain substances required to be disclosed according to the Canada WHMIS Ingredient Disclosure List.

16. Other information

NFPA: Health: 1 Flammability: 0 Instability: 0
HMIS: Health: 1 Flammability: 0 Physical Hazard: 0
